Comments/Notes: The Gen 120 cavitron was repaired in Feb 2023 for us to keep as our back up. We used it for the first time Monday 1-8-24 and it was working great until Wed morning then would not power on, we checked breakers, changed outlets but it will not power on now. The Gen 124 stopped working on 1-8-24, we cannot get water through the tubing, checked the little filter and attempted a few times to blow out but still cannot get water to the tips

Equipment: Small Equipment Repair
