Comments/Notes: Box, faceplate, cord and motor has been included. Adam has spoken with Paul about the issue that occurred after he installed a cord that Kavo wired backward. Unit is in constant error. Unit was sent back to Kavo, but they said that the unit is old and a new unit needs to be purchased. Paul mentioned the possibility of installing a new/refurbished circuit board in it. Please advise on price before work is performed. Thank you!
