Equipment: I/O Sensor and Camera Repair

Item #	Quantity	Make	Model	S/N	Problem
1	1	Dexis	titanium	?	when connected to computer the usb portion is green but it doesn't seem to connect with the computer. We have tried it in all of the computer ports and with all of our different adapters but it doesn't allow us to take x-rays. I'm not really sure what's wrong with it.
